

I am deeply concerned about the provision proposed in Docket #02-277. I feel that broadcasters are already consolidated enough and any further compression of ownership will hurt diversity of thought and programming. Here in Ann Arbor, MI, without subscribing to cable, which I can't afford, the only television channel I gat clearly is FOX. I find that unacceptable. At least four of my available radio stations are owned by Clear Channel and I have very little choice or diversity as it stands now.

Anymore media consolidation would not be in the public's interest. Newspaper and local TV cross-ownership rules should remain as they are and no increase in radio station ownership should be allowed. Thank you for this opportunity.
